

## **Courses in English for Erasmus students available in the summer semester 2018/2019**

**Short-term programs. Courses in English for Erasmus students available in the summer semester 2018/2019.**

This is information for Erasmus and bilateral-exchange students. We offer courses in English within the major of Environmental Engineering.

Courses in English offered to incoming short-term exchange bachelor's degree students:

[Air Protection](#)

[Alternative water treatment](#)

[Analytic Hierarchy Process \(AHP\) in environmental engineering](#)

[Applied hydraulics](#)

[Building installations](#)

[Computer modelling \(REVIT-FLUENT\)](#)

[Data analysis and statistics](#)

[Energy efficient buildings](#)

[Environmental decision-making](#)

[Environmental management](#)

[GIS](#)

[Indoor air quality and energy conservation](#)

[Municipal infrastructure](#)

[On-site wastewater treatment and disposal systems](#)

[Sewerage real-time modeling](#)

[Soil Remediation](#)

**Soil- structure interactions**

[Solid waste management](#)

[State of art in water and wastewater analyses](#)

[Sustainable wastewater treatment](#)

[Water and wastewater process technology](#)

**Water and wastewater treatment**

**Water supply and sewerage**

**Polish language and culture**

Please note, that a specific course will be opened under the condition that a minimum number of applicants is reached.

If you require more information about the course availability, contents, and fees, get in touch with the Erasmus Coordinator at the Faculty Anna Stypka ([ani.stypka@pwr.edu.pl](mailto:ani.stypka@pwr.edu.pl)) or the Associate-Dean Jarosław Müller, Ph.D. ([jmuller@pk.edu.pl](mailto:jmuller@pk.edu.pl)).
